EDITORIAL

It has been the custom of each senior class to publish a yearbook. For ten years it has been called the "Whitefeather" and it will retain that name this year.

Our aim is to give you an idea of the recreational life of the students as well as their scholastic activities.

Our policy throughout this book is to make it an interesting review of this year's activities.

We wish to thank each teacher who has cooperated with us in any way. Also, we wish to thank all the merchants who have advertised in our yearbook because we realize that without their cooperation we could not have published the Whitefeather.

We hope that in the future we can look to this book as a reference to the pleasant memories of our senior year.

DEPARTMENTS

DEDICATED TO

To show our devotion to Miss Ilo Winget, we wish to dedicate this issue of the Whitefeather to her.

She has taught in our school longer than any other member of the faculty. We were in the fourth grade when she started to teach at Buckland and we are the first class to graduate that she has taught while here.

During the coming years, may this annual recall to her mind memories of time well-spent in assisting us toward our goals in life.

APPRECIATION

We couldn't consider our annual complete without expressing our appreciation to Mr. Lynch for the advice and time that he has given us in our work. We hope that in some way this will express our thanks to him.

Student-Faculty Relationship

School is one of our pathways of life, the faculty being one of the guides. The teachers not only help us with our lessons, but they also help us in developing sportsmanship and friendship among ourselves.

The faculty teaches us to cooperate with one another thus saving time and making our tasks easier. We hope we have helped the faculty to some extent, too.

When we leave our school, we probably will not associate directly with our former teachers, but throughout our lives we will think of the help, encouragement and cooperation they gave us when we needed it most.

The Board of Education Speaks

We the members of the Board of Education wish to commend the class of 1940 on their splendid efforts in compiling this edition of the Whitefeather. We feel that much work and energy have been put forth to make this annual the success that it is.

We have endeavored to keep this school up to as high a standard as our financial resources would permit by purchasing new equipment, adding new courses and by making any necessary changes for the advancement of the school.

We wish to thank the teachers and students for their hearty cooperation in so nobly assisting us in keeping our school up to the high standard we desire it to be.

Buckland has the honor of having a very efficient transportation system. Due to the larger extension of territory in previous years, five busses are being used.

This year, the bus drivers were required to attend a school which tends to improve the principles of safedriving. The bus drivers have always tried to promote a safe and efficient means of transportation for the pupils.

The Buckland community has improved and will continue to improve its school transportation system from year to year.

Class Prophecy

Buckland, Ohio, July 5, 1950

The annual picnic of the graduating class of 1940 was held at Fort Amanda on July 4, 1950. We also celebrated Fourth of July. Every class member attended, each bringing his own families and friends.

The first to arrive was Carl Gene Place, a well-known farmer, who lives near Fort Amanda. He is one of the best known horse-raisers. His horses have won many prizes in the state.

Next our song-bird of the class came, the second Kate Smith. June Smith has been filling Kate Smith's place on the radio. She has been very successful and hopes to increase her standing.

The famous actor Howard Wheeler arrived in a very handsome limousine. He has just recently been in Hollywood. He was accompanied by a very beautiful blonde who was doing an act with him.

Marjorie Bowsher who was very fashionable in her own selected clothing arrived with Eldon Whetstone who was at that time in New York on a business tour. Marjorie has her own stylish dress shop in New York. Eldon owns and operates the Ford Tractor Manufacturing company.

Kathryn Bowsher who has been married for the past eight years came with her husband and four children. She has done very well in keeping house and making a home for them.

Dorotha Burnfield next arrived also from Hollywood. She has been a hairdresser for famous movie actresses. She has been traveling very much over Europe.

Clyde Dingledine came, bringing with him Edward Bowersock who has been a pilot for Clyde's yacht. Clyde is a prosperous banker of the West. They have just returned from cruising around the southern part of United States.

Mrs. W. Brookhart, formerly Nellie Walther, arrived with her husband and small son. Mrs. Brookhart has been very popular in the work of her community. Her husband is now employed at Lima.

Mildred Wildermuth arrived and with her Margaret Zuber who have been very close friends for many years. Mildred is married to a young doctor. They are doing very well. Margaret is private nurse attending Mildred's husband. They have a very prosperous business at a small town in the southern part of Ohio.

Eldon Bowsher arrived from New York. He has been very prosperous in his playing at the Casino. He brought along a traveling companion who also worked at the Casino. He hopes to become more well-known in his work.

Vera Richards who has always been very popular in piano-playing has found a position as pianist for June Smith who has been filling Kate Smith's place on the radio. She also has been doing a little singing at which she has become very good.

Carl Cook who is very prosperous in his own business world arrived. He has a great department store for Men's Apparel and is located at Lima. His store is very well-known for a good distance around.

Vernita Sanford came from Texas and brought her two children and husband with her. She has been married for some time and has been very prosperous. Her husband is employed in the oil fields. Vernita has done very well in making a home.

Leroy Lawrence accompanied by Betty Naumburg arrived. They have made a very famous dancing couple. They have made many appearances touring through Europe and America. It looks as if they will become a second Fred Astaire and Ginger Rogers.

Maxine Biederman is working at a hotel in Canada. She has been a secretary in this hotel for many years. She is now married but has continued to work. Too bad her husband cannot work and keep her!

Harold Wheeler has been very well known as an aviator. He has made several solo flights. He is now making a trip, carrying mail aross the continent. He is making a large salary and hopes to increase his position and standing. He is almost like a sailor—he has a girl in every port. You better be careful, Harold!

Gene Sprague, a well-known New York lawyer arrived, bringing with him his wife, who was a former broadway dancer. Gene has become very well-known and has helped many poor people in distress.

Robert Hines arrived full of ambition, very jolly and carefree. "Bob" has made himself very well known for his traveling. He has been traveling all over the continent. We always thought "Bob" to be a farmer and after school he would settle down but it doesn't look like it. We hope he will always be happy and carefree. We wish him good luck in his traveling.

Mary Krites is now working for a millionaire who is spending his time in Florida. In the winter she makes her home in Florida and in the summer she travels. She came back to be with her friends and to take the last minute readings of the annual class picnic of the Class of 1940.

Eleven years ago several small children entered Buckland school. They were quite frightened but soon overcame this fear. By the time they were through the eighth grade they were feeling quite at home.

Several of the boys played basketball during the sophomore year. This year our class, although it is small, is still represented on the basketball team. Quite a few have been given important positions. The Glee Club, Paper Club, Home Economics Club, Orchestra, and Band have all been joined by members of this class.

This year has been a most exciting year. Class rings were chosen and received. Then the seniors were entertained at the annual Junior-Senior reception. The class play "Strike Three" was a great success.

Ten years ago the sophomores started to school as little tots and backward first graders. Most of them have outgrown this. Some who started have moved away and others have come in their places. Gladys Zuber has entered this year.

The sophomores sailed along smoothly through the first eight years. Then came their graduation and high school. They felt very grown up in their freshman year, but they take everything for granted now.

However small the everyday class work may seem, it all plays a relatively large part in everyone's life. Each one of the sophomores is striving to complete the high school course and "to make good" in the world when he has finished. This class has been well represented in basketball and other school activities. They hope to become better known for their work and achievements. They also get together for parties and meetings.

Class officers are as follows:

President, Norma Jean Bowersock; Vice-president, Glen Biederman; Secretary-Treasurer, Imogene Link; and Class Reporter, Hazel Smith. The class adviser is Miss Bair.

The freshman class of 1939-40 has tried to make their first year of high school a success. Their number is twenty-two and they hope to have this number at the end of their senior year.

All of the freshman girls entered the Glee Club at the beginning of the year. The freshman boys had a chance to take Vocational Agriculture which was offered for the first time this year. Most of them also joined the F. F. A. Chapter.

They have tried to make their grades at least average and higher. They have also tried to be good sports in athletics and school affairs.

The freshman class wishes to thank their teachers and Superintendent for the guidance they have given them in the beginning of their high school career.

The class colors are red and black.

In this room there are fifty-five
Very active and alive
Always full of pep and fun
Playing games when the work is done.

Soon this year will be over
Then the boys will work in clover
But the girls so blithe and gay
Will help with housework all the day.

Another year has been completed. Some have left us, while others have filled their places. There are a total of fifty-five seventh and eighth graders in our room. Certain standards have been set up in our room and everyone is attempting to uphold them. Next year the standards will be higher, but with everyone willing to co-operate, they can be managed very well.

FIFTH & SIXTH GRADES

After a vacation of three months, on September fifth twenty-seven sixth graders resumed their journey along the highway of education. They were accompanied by ten fifth graders. Early in the year Donald Kapp left the sixth grade and his place was later taken by Robert Zuber and later Peggy Minkner. Some found this lap of the journey easy and others found many obstacles in the form of studies along the way.

We did our share in the Christmas Operetta and Institute program. Although small it may be, each has his or her place to fill and they hope they have done their best. Thus, they say good-bye for another vacation along their journey of education.

Back Row: Carl Lawrence, Jimmy Wagner, Robert Place, William Miller, Robert Zuber, Jimmy Werst, Edgar Adams, Carolyn Lee, Mary Lee Lybarger, Lois Lane, Norabelle Fogt.

On September 5, 1939, thirty-nine fourth and fifth graders came back to school ready for another year's work.

Soon after school started Clifford Kapp moved. This left only nine in our fifth grade. Then in the spring, Marie and Pauline Ahlers and Forest Kantner withdrew but four new scholars entered about that time. They were Carol Minkner, Carmen Bodey, Robert McPheron, and Marsh Bowersock.

Several members of the class took part in the Christmas Operetta and Institute program.

SECOND & THIRD GRADES

Back Row: Rexie Place, John Wheeler, Fredy Puschel, Henry Sager Jr., Bobby Steveley, Harold Louth, Jay Place, Patricia Place, Marlyn June Sprague, Wilda Lindamuth, Glen Adams, Glen Place.

On September 5, 1939, forty boys and girls entered this room. Eleven of them were second graders and twenty-nine were third graders. Later two withdrew (Byron and Carol Kapp) leaving a total of thirty-eight. In March, Paul Ahlers moved to New Knoxville diminishing our number to thirty-seven, but two entered, so now our number is thirty-nine.

Twenty-one members of the rhythm band were chosen from our room. A few had parts in the Christmas operetta. Parties were held on Thanksgiving, on Christmas and on Valentine's Day.

Ech boy and girl has tried to cooperate in making this school a success. They learned that by constant study they can accomplish the hardest tasks.

FIRST & SECOND GRADES

In the fall of 1939, twenty-six eager first graders took their first steps into their school career. Along with them came twenty-four second graders, all wondering how many were to spend the year in the first room. Finally, it was decided that thirteen should remain. Since that time, one second grader, William Court, and one first grader, Donald Schaub, have withdrawn.

Although they may be very little, if they keep on climbing up the ladder of success, they know that when they are older, they shall bring honor to their school.

Back Row: Walter Spees, William Davidson, Jack Springer, William Louth, Don Reed Steveley, Henry Miller, Junior Richardson, Glenn LeMar, Samuel Sanford, Teddy Joe Elsass, William Carey, Robert Sunderland.

Activities or What We Do

Buckland High School has many activities in which all students are permitted to participate. This year many new ones have been introduced. Among the many activities available are: basketball, baseball, paddle tennis, badminton, shuffleboard, horseshoe, band, orchestra, glee club, and volley ball. Miss Suter and Mr. Linn instruct these activities. The pupils willingly go to their activity classes because they are sure they will enjoy themselves.

Since 1934 the Pioneer has served as a beckoning light to on-coming students. It is a bi-weekly published by the members of the Paper Club and it is the voice of the students.

The Pioneer is exchanged with seventeen other schools in Ohio. In this way, the pupils of Buckland High School keep in touch with the progress of other schools.

The purpose of the Pioneer is to give to the parents and friends of the pupils a brief resume of the educational and recreational activities carried on in the school.

The publishing of a school paper is not only good practice for those interested in journalistic work but it also stimulates co-operation which is much needed in this world of today.

Through the cooperation of everyone reading the Pioneer, it is hoped that it will continue to be a bigger and better Pioneer.

Romance Comes To Rupert

Left to Right: Vera Richardson, Vernita Sanford, June Smith, Betty Naumburg, Eldon Bowsher, Robert Hines, Maxine Biederman, Mary Krites, Howard Wheeler, Nellie Walther, Harold Wheeler.

Rupert Lee is owner of a dairy farm but detests this kind of life and longs for romance and adventure. Jane, his secretary, who secretly adores him, says: "Rupert thinks getting milk from a cow is dull; but getting it from a cocoanut is romantic."

He owns the extremely valuable Rainbow Pearls but even this doesn't suggest excitement to him until a show troupe comes to live in his home. Love, romance, intrigue, attempted thievery and murder swoop down on the placid dairy; and when thieves and would-be murderers have been apprehended, the stolen peals recovered, and blighted romances made to bloom again, Rupert has been convinced that love and romance are always at hand and to be had for the looking.

He plays on the local baseball team.

Henry later learns that he must also sponsor a baseball team which is going to play Michael's team. What is Henry's horror when they arrive to find that he is entertaining a female ball team! This year, seven seniors will leave the band. After graduation they are invited to attend practices to help the band's progress. New members are added each year to fill the places of those who graduate.

Orchestra

The orchestra has improved greatly this year with the cooperation of the students and the leadership of Miss Suter.

They have taken part in many programs here at the school, including the institute, class plays, Farm Bureau meetings, and other school activities.

They took part in the spring festival, which was held during music week, the first week of May.

To the orchestra we give the credit for teaching us to appreciate and understand music.

The orchestra members hope that their listeners have enjoyed hearing them as much as they have enjoyed playing.

Royal Order of Homemakers Club

The R. O. H. Club was organized on September 28, 1939. The members include the two home economics classes and students of other classes who wished to join. The making of this club has been an accomplishment for which we are proud.

The club meets once every month on Thursday, and different things are discussed about home economy. Th club motto is "Keep the Home Fires Burning," and the colors are navy blue and pink. The class officers are as follows:

President	Imogene Link
Vice-President	Annabelle Place
Secretary	Jean Burkett
Treasurer	Ruth Whetstone
News Reporter	Hazel Fogt

The club wishes to express its appreciation to Miss Bierhup, who has offered her instruction and advice to help the members through this year.

The enrollment this year numbers twenty-one. There are four altos, six second sopranos and eleven first sopranos.

The efforts of this organization are to develop musical talents and for personal pleasure of everyone enrolled. Everyone enjoys the club very much.

The club has been singing a wide variety of music and has taken part in singing for many occasions.

Every member of the club hopes to make the Glee Club bigger and better in years to come.

Basketball

The varsity basketball team this year was made up of last year's reserve material, with the exception of Harold Wheeler, who held a varsity position on last year's team. As a result the team got off to a rather slow start. Nevertheless the team displayed a real brand of basketball at all times, displaying the clever pass work, good pivoting and faking, but always handicapped with the lack of height which is still a great asset to a basketball team. The boys showed great spirit in fighting to the finish in every game no matter how heavy the odds were against them. As a result they forced their way upward to a fourth place position in the League and a national reputation in holding the County Champions, New Knoxville, to a 2 to 0 score. This game was recognized as a great rarity by nearly every sports writer and sports announcer in the United States. This game will undoubtedly be remembered and discussed in many years to come.

The future for the Bucks next year looks much brighter as they have five varsity men returning and a wealth of good material entering high school next year.

Buckland school is literally infested with rare oddities, rare enough to make Old Ripley quake in his boots.

Contrary to all basketball regularities Buckland's flying forties met the New Knoxville Rangers with a final score of 2-0 in Knoxville favor. This will go down in 1940's basketball history as an outstanding low score.

Mr. Linn: "Vernon, what is HNO^3?"
Vernon Wildermuth: "I've got it on the tip of my tongue, sir."

He was her dentist.
